SAN PEDRO, CALIFORNIA

African Violet List.

March, 1953

Leaves only.

Owing to various setbacks, I will be a bit late this spring, and will start shipping in May. Order early, as the stock is small. Orders will be filled in rotation. Please give second choice if possible. Orders shipped outside of California by airmail only. California customers please add 3% tax. For orders under \$5.00 please add 50c postage.

All my plants have been sprayed, treated with sodium selenate, and inspected.

\$1.00 each

Narbonne--Rather flat growth, long stems, girl leaf with large white spot, rest of leaf medium light green. Leaf edges are curved over so that the leaf is shaped like a scoop shovel. Flowers medium violet, V3 on color chart.

Show Queen--Large shining light green girl leaves. Clear light blue flowers. Makes a large showy plant.

75c each

Bright Angel--Rather upright growth, medium green, girl type leaves, curled and crenellated. Flowers red violet 2.

Hortense Mitchell--Dark, well marked girl leaves. Flowers deep violet, RV1 on color chart. Does best in strong light.

Lady Carolyn--Not my origination. Upright growth, deeply cut medium green girl leaves. Flowers slightly ruffled, red violet 4 with darker edging and markings, slightly bicolor. The general effect is rosy. Very pretty.

Party Girl--Large light green girl leaves. Large light blue flowers.

Pacific Shadows--Rather flat growth, dark smooth leaves with lighter veins. Flowers bright blue. Grow in strong light.

Silver Moon--Upright growth. Large round shining light green leaves. Large round white flowers. Good bloomer, gets very large.

50c each

Fortuna--Medium dark girl foliage, flowers medium red violet, RV2.

Lady Jean--Medium light green oval leaves. Flowers violet red, VR2. In certain lights they appear rose colored.

Mt. Hood--Light green serrated leaves. White flowers with orchid eye and edging. Don't throw it out if the first flowers are pure white! Later ones will show the color.

Ted's Treasure--Not my origination. Leaves like Pink Girl, but darker. Medium light blue flowers. Very heavy bloomer.
